Welcome to your space

PHASE 1 / DESIGN & NAVIGATION EDITION

Plans can support your life. They do not have to fill it.

Welcome to E-books para la vida — YOYI'R. This is a space for clear intentions, useful routines and the small things you want to remember.

Start with a year, explore the January sample, or make a page your own. Your handwriting and choices bring this planner to life.

This edition includes complete annual calendars for 2026–2028 and selected working templates. The remaining dated daily and weekly pages belong to a later phase.

Hyperlinked PDF Digital Planner designed for PDF annotation apps on tablets and phones.

A calm beginning

PHASE 1 / DESIGN & NAVIGATION EDITION

01 / IMPORT

Save the PDF locally and import it into your PDF annotation app. Once imported, the planner needs no internet connection.

02 / NAVIGATE

Tap the filled navigation tabs. Some apps activate links in reading mode. HOME returns to the cover; INDEX opens all sections.

03 / WRITE

Use your app to write, draw, highlight or insert images. Ruled boxes, calendar cells and tracker marks are writing areas, not controls.

04 / PERSONALIZE

Covers and themes are static page designs. Replacing covers, duplicating templates and adding PNG stickers depend on your app. Duplicating a page may preserve links to the original.

05 / TEST

Month edge tabs stay in their selected year. Overview tabs use standard PDF zoom destinations: zoom back out to reach HOME or INDEX. Test this behavior in your app.

Little markers, clear meaning

PHASE 1 / DESIGN & NAVIGATION EDITION

A small sample of reusable PNG markers. Insert the separate transparent files with your annotation app.

The page is a visual reference. These printed shapes are not buttons and do not add stickers when tapped.
